

# Ontario Workplace Safety Compliance Checklist

- Conduct a full hazard assessment for all work areas.
- Maintain a written health and safety policy reviewed yearly.
- Provide mandatory training such as WHMIS, first aid, and task specific instruction.
- Inspect and maintain all machines, tools, and safety equipment.
- Prepare and practice emergency procedures and evacuation plans.
- Document and investigate all incidents, injuries, and near misses.
- Post required OHSA documents in a visible location.
- Perform regular workplace inspections and assign corrective actions.
